Assemblies

Compulsory for all students twice a month, to

- Foreign languages: 2, of which 1 must be Russian.
- Marxist-Leninist doctrine; the course lasts a year.
- Premilitary ^{indoctrination} ~~culture~~: lasts 4-5 years, depending on the faculty.

Professor, for the first year, is an infantry major, formerly an Officer in the Royal Army. Arms in general, the MAUSER and the 91 rifles in particular, are dealt with in the first year. Squad formations are also dealt with theoretically, and practical applications are carried out in the field.

50X1-HUM

In the second and third years, various questions with regard to weapons, organization, tactics and strategy, regulation, etc., are developed.

After the third year the courses take a different turn depending on the arm and specialization to which the student is assigned, on the basis of the faculty he attends.

Medical students in their third and fourth year study war surgery.

Of the engineering students some specialize in tanks, getting practice also in driving them; others, assigned
